DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

a) **In Regarding to Claims 9-19:** The prior arts of record fail to teach a telecommunications system for transmitting Transcoder/Rate Adaptor Unit (TRAU) information in an Internet Protocol (IP) based base station system architecture via an IP network, the telecommunications system comprising a combination of steps of:

append a sequence number parameter defining a sequence number of a payload to the payload and the TRAU in-band control information, wherein the length of the sequence number is a function of the maximum jitter in the IP network; and

encapsulate the payload, the TRAU in-band control information and the sequence number parameter into a User Datagram Protocol packet.

b) **In Regarding to Claims 21-25:** The prior arts of record fail to teach a method for transmitting Transcoder/Rate Adaptor Unit (TRAU) information in an Internet Protocol (IP) based base station system architecture via an IP network, the method comprising a combination of steps of:

appending a sequence number parameter defining a sequence number of a payload to the payload and the TRAU in-band control information, wherein the length of the sequence number is a function of the maximum jitter in the IP network; and

encapsulating the payload, the TRAU in-band control information and the sequence number parameter into a User Datagram Protocol packet.

Art Unit: 2661

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
